Greater Noida, India

SUMMARY

Final-year B.Tech CS student with hands-on experience in full-stack development, AI integration, and cloud services (AWS). Completed AI/ML and Android training programs under AICTE in collaboration with AWS and Google; built production-grade projects leveraging ML, LLMs, and modern web technologies. Passionate about scalable, user-focused engineering.

EDUCATION

Galgotias University

B.Tech in Computer Science & Engineering

Greater Noida, UP

Jul 2022 – Jul 2026

Delhi Public School, Meerut

Senior Secondary (CBSE, XII) & Secondary (X)

Meerut, UP

2019 – 2021

TECHNICAL SKILLS

Languages: JavaScript (ES6), Python, Java, C++, HTML/CSS

Frameworks & Libraries: ReactJS, Tailwind CSS, FastAPI, Flask, Node.js

Cloud & Tools: AWS (EC2, S3, Lambda, Rekognition), Firebase, Vercel, Git, GitHub

AI/ML: LLMs, OpenAI API, MistralAI, Camel AI, Prompt Engineering

Databases: MongoDB, MySQL

Core CS: DBMS, OS, CN, OOP, DSA

TRAINING, INTERNSHIPS & EXPERIENCE

Frontend Developer Intern

Aug 2025 – Oct 2025

Acumen Travels India Pvt. Ltd.

New Delhi, India

- Built a live search bar with real-time suggestions, improving destination discovery UX significantly.
- Integrated Razorpay Payment Gateway into the travel booking flow, enabling secure online transactions.
- Recognized as **Best Performer** in the Frontend Team for consistently delivering production-ready code.

Android Development Intern

Jan 2024 – Mar 2024

Google Android Program

Remote

- Built a Note App using Java/XML covering UI components, Activity lifecycle, and Material Design guidelines.

AI/ML Intern

Oct 2023 – Dec 2023

Amazon Web Services (AWS)

Remote

- Completed hands-on labs on AWS EC2, S3, Lambda, and Rekognition as part of AICTE's cloud computing program.

PROJECTS

Facial Recognition Attendance System | Python, OpenCV, dlib, AWS S3, GPS

- Built a desktop attendance application using OpenCV and `face_recognition` (dlib) for real-time face detection, **reducing manual effort by ~80%**.
- Integrated GPS-based geo-verification and AWS S3 cloud sync for tamper-proof, multi-device accessible attendance logs.

Maaya: AI-Based Chatbot | Python, MistralAI, Camel AI

- Built a multi-turn conversational AI by integrating MistralAI API with Camel AI's role-playing agent framework.
- Designed a modular backend enabling easy model/API key swapping, improving maintainability and scalability.

Health Hero | Python, FastAPI, OpenAI API, WebSocket, SQLite

- Built a full-stack health coaching app with FastAPI backend, JWT authentication, and SQLite persistence for user sessions and metrics.
- Implemented real-time chat via WebSocket and streaming API endpoints, enabling instant AI responses using OpenAI's gpt-4o-mini model.
- Engineered structured prompt guardrails with mock fallback responses, ensuring safe, context-relevant health guidance even without API access.

CERTIFICATIONS & ACHIEVEMENTS

- Android Development – **Google** | AI/ML Certification – **Google** | Cloud Foundations – **AWS** | Frontend Development – **Acumen** | Cybersecurity – **Palo Alto**
- Deployed **6+ full-stack projects** on GitHub and Netlify.
- Best Performer award in frontend development internship at Acumen Travels India.
